Our Services — End-to-End Sourcing Solutions

We provide complete sourcing support from concept to final shipment, acting as your dedicated local team in Bangladesh. Every stage is documented and communicated so you always know the status of your order.

● Product Development	● Supplier Identification
● Cost Analysis	● Sample Development
● Fabric & Trim Sourcing	● Price Negotiation
● Order Placement	● Production Monitoring
● Quality Inspection	● Shipment Coordination
● Export Documentation	● After-Sales Support

Our Streamlined Workflow

A rigorous step-by-step methodology ensuring flawless execution from initial inquiry to final delivery.

1. Buyer Inquiry	6. Order Confirmation
2. Product Development	7. Raw Material Follow-up
3. Supplier Selection	8. Production Monitoring & QC
4. Quotation & Costing	9. Packing Approval & Shipment
5. Sample Development	

Quality Assurance

Our experienced quality control team implements internationally accepted inspection protocols across every stage of manufacturing. The objective is consistent, zero-defect deliveries that protect your brand reputation and reduce returns.

Fabric Inspection

Rigorous incoming checks on GSM, color fastness, shrinkage, skew, and structural integrity before cutting. Only approved lots proceed to production.

Pre-Production Meeting (PPM)

Detailed alignment with factory production heads on buyer specifications, critical measurements, construction details, and risk points before bulk starts.

Inline & Mid-Line Inspection

Continuous monitoring during cutting, stitching and assembly to catch deviations early. Daily reports shared with the merchandising team.

Final Random Inspection (AQL 2.5 / 4.0)

Comprehensive finished-goods auditing following international AQL standards (normally 2.5 major / 4.0 minor) prior to packing and shipment release.

Measurement & Fit Audit

Size-set and production measurement checks against buyer size charts with documented tolerance control.

Packing & Assortment Check

Verification of ratio packing, polybag quality, carton markings, and barcode accuracy before cartons are sealed.

Container Loading Supervision

On-site supervision during final carton loading to prevent moisture damage, ensure correct container stowage and accurate packing lists.

Compliance & Sustainability

We believe sustainable and ethical sourcing creates enduring value for both buyers and workers. We partner exclusively with manufacturing units that uphold high social, ethical and environmental standards and can support the audit and certification requirements of international brands.

Compliance Focus Areas

- Social Compliance & Fair Wages
- Ethical Manufacturing Standards
- Strict Worker Welfare & Safety
- Environmental Responsibility
- Chemical Management (ZDHC / REACH)
- Product Safety & Testing
- Supply Chain Traceability
- Continuous Improvement Programs

Note: Specific compliance audits and factory certifications (WRAP, BSCI, Sedex, OEKO-TEX, GOTS) are arranged according to customer requirements and factory allocations.

Our Core Business & Capabilities

Apparel Sourcing

Comprehensive manufacturing solutions across knitwear, woven garments, denim, sportswear, workwear, outerwear, kidswear and fashion wear — from basic to value-added styles.
